## OBJECTIVE

B.Tech CSE student skilled in Java, Python, React, FastAPI, and AI-powered web development, seeking opportunities in software development and backend engineering.

## EXPERIENCE

**Infosys Springboard – Virtual Internship** *Software Development Intern — Jul 2026 – Present*

- Selected for a 2-month virtual internship focused on practical software development and industry projects.
- Developing ShopSense, a full-stack multi-vendor e-commerce analytics platform with AI-powered features.

**ServiceNow University – Virtual Internship Program** *Virtual Intern — May 2026*

- Completed a virtual internship covering ServiceNow Administration, Flows, Reports, ATF, and Agentic AI.
- Gained practical exposure to the ServiceNow platform and CSA examination preparation.

## EDUCATION

**Bachelor of Technology in Computer Science and Engineering** **2023 – Present (7th Sem)**
College of Engineering and Management Kolaghat, West Bengal Overall CGPA: 7.873

**CBSE, Class XII** **2021 – 2023**
BNR Excellence Academy, Kharagpur

**ICSE, Class X** **2011 – 2021**
South Eastern Railway Mixed Higher Secondary School, Kharagpur

## TECHNICAL SKILLS

**Programming:** Java, Python, C
**Web:** HTML, CSS, JavaScript, React
**Backend:** FastAPI, REST APIs
**Database:** MySQL, PostgreSQL, Neo4j
**AI/APIs:** Gemini API, AI/ML APIs, Postman
**Tools:** Firebase, Google Colab, Git/GitHub

## PROJECTS

**ShopSense – AI-Powered Multi-Vendor E-Commerce Analytics Platform**
*[Tech: Python, FastAPI, React, PostgreSQL, SQLAlchemy, Pandas, AI/ML APIs]*

- **Problem:** Multi-vendor platforms lack centralized tools for product management, sales analysis and feedback.
- **Solution:** Built a full-stack platform with Admin, Vendor, and Customer portals for product management, sales analytics, and AI-powered insights.
- **Implementation:** Used FastAPI and PostgreSQL for backend and data management, Pandas for analytics, and AI/ML APIs for product taglines, semantic product discovery, and review sentiment analysis.

**Career Ladder – AI-Powered Career Guidance Web App** *[Tech: HTML, CSS, Firebase, Gemini API]*

- **Problem:** Students often lack personalized guidance for choosing careers and building relevant skills.
- **Solution:** Developed an AI web app that generates career roadmaps from user interests, skills, and goals.
- **Implementation:** Integrated Gemini API for AI recommendations and Firebase for authentication and storage, with roadmap saving, PDF export, notes, and search/filter features.

## ACHIEVEMENTS / CERTIFICATIONS

- Industrial Training in Specialized Coding Program, PCS Global Pvt. Ltd. (Jan 2026)
- IBM SkillBuild – Learner to Builder Certified
- Postman API Student Expert Certified
- CSRBox & IBM AI Agentic Builder Program – Certified for AI agent project development
- Google Cloud Gen AI Academy 2.0 – Certifications across AI/ML, Security, DevOps, Networking, and Serverless Computing
